"Just Beyond the Clouds"

Visit "[Just Beyond the Clouds](#)" on MotoLyrics.com

When the road of life is long
And it's hard to take another step
The sky is dark and hope is gone
But every word He said, won't let your heart forget

Chorus:

There's sunshine just beyond the clouds
The darkness will fade away
There's a new day coming that'll wipe away the doubt
There's sunshine just beyond the clouds

Life it strikes you're all alone
Caught up in this crazy storm
Can't find your way home

There's a truth you can't ignore
You were meant for so much more

Chorus

Right behind the dawn
A place that's safe and warm
And all the love you're looking for

Chorus (x2)
