You know everything I do is never safe,  
You just look at me to see me go insane,  
You see the spirit fly, reaction like a chain,  
The future has your eyes so you'll never see your past,  
Watch your future see your past you can't escape,  
The 1990's are corrupt and on the pass,  
You wanna come and see? I'm acting like a fool,  
Just trying to get inside the roots of the past,  
No sanity...  
Living alter in your head is sewn shut,

Try to stay in line you're gonna make the cut,  
What you know, you know, no but they don't know,  
Disassociate insanity is not a show,  
I told you once but I will tell you once again  
I'm in love with a colossal intention,  
I'll give you value if you're paying for the base  
Of a little game called "Cut And Paste The Face"  
I ain't a fan of what you done to my head  
You beat it senseless and left it for dead,  
Accelerated egomaniac all along,  
You said it right but you told it all wrong.
