"The Panic Range"

Visit "[The Panic Range](#)" on MotoLyrics.com

Come and find me at the corner of the room
Sitting down with the rounds of the going round of the
doom,
Economic depressions bring it down onto
Movie extras, entertainers, actors, models, need it
now,
Look see, fanatic?
And, see the panic,
Come and find me at the center of the room

Putting strain on the brain so I'll surely go insane,
Making a machine putting strain on the crane
To suffocation at the pressure cutting measure for the
weather,
Come with me let me show you where it is,
Trust me I got this follow me if you dare,
Credit reports and scores, money available act now
Or be lost in lost and found, I know I'm found but I lost,
My mind that is they say I've lost, but I know it's fine.
