(All right)

I like the thang you do, when you do what you do

I love that look in your eye, Oh I can't deny

The thang that you do, I love you

Like that thang that you do

I like the way that you shake

The way you make my heart ache

I like the way that you move

When you really in the groove

The thang that you do, I love you,

Like that thang that you do

The way that you shake, My heart aches,

I like the way that you shake (go ahead shake it)

I like the way that you shake

I like the way you shake

I like the way that you move

The thang that you do, I love you

Like the thang that you do

I like the way you shake, My heart aches

Like the way you shake (here I go) (ah shake it)

Oh I like the way you shake

I like the way you shake

I like the way ya move

The way that you shake, my heart ache,

Like the way you shake

I like the thang that you do, I love you,

Like the way ya shake
