Under the strobing lines
The rhythm the rhythm
Baby don't get to hide
Play it all outta your system

You gotta free your mind
Put yourself online
Cause it's your night night night
So get it right right right

Come on
Can you feel it inside
Relax and go for a ride
You know you need it
I can see it in your eyes

[Chorus]
So when you're out
Roll your windows down
Cause tonight's your night
Get lost in the sound
Gotta play the music loud
Baby blow your speakers out

So when you're out
Roll your windows down
Cause tonight's your night
Get lost in the sound
Gotta play the music loud
Baby blow your speakers out

I know you feel the heat
I see you feelin' fried
Don't worry about a thing
Fulfill your every desire

DJ play the song
Tonight you can't go wrong
'Cause it's your night night night
So do it right right right

Come on
Can you feel it inside
Relax and go for a ride
You know you need it
I can see it in your eyes

[Chorus]

So when you're out
Roll your windows down
Cause tonight's your night
Get lost in the sound
Gotta play the music loud
Baby blow your speakers out

So when you're out
Roll your windows down
Cause tonight's your night
Get lost in the sound
Gotta play the music loud
Baby blow your speakers out

Oooo Ooo
And let me here you say
Oooo Oooo
This party's never over no no no
Oooo oooo
And let me here you say
Oooo oooo

[Chorus]

So when you're out
Roll your windows down
Cause tonight's your night
Get lost in the sound
Gotta play the music loud
Baby blow your speakers out

So when you're out
Roll your windows down
Cause tonight's your night
Get lost in the sound
Gotta play the music loud
Baby blow your speakers out
Your speakers out
Ooo Ooo
Your speakers out
Ooo Ooo
Ooo Ooo
