We know it girl, he hurt you bad
It's in your eyes you're still sad
He left you standing in the rain
But girl don't let him win

There's lots of love out there
So many places you will go
But if you hold on to the past
Then time will move so slow

[Chorus]
So baby let go
You've gotta let go
Cuz the weight you carry
Sinks you down so low
Baby let go
You've got let go
And I thought that you should know
You're beautiful
Just let go

You can cry or live in fear
But it wont help, don't ever waste your tears
On someone who's not worth your time
Baby leave the hurt behind

You've got one life to live
So take it as it comes
The more love that you give
The closer you are to the one

[Chorus]
So baby let go
You've gotta let go
Cuz the weight you carry
Sinks you down so low
Baby let go
You've got let go
And I thought that you should know
You're beautiful
Just let go

Don't give up don't say goodbye
Cuz real love won't make you cry
Just let go and you will find
That love sets you free
(x2)

[Chorus]
So baby let go
You've gotta let go
Cuz the weight you carry
Sinks you down so low
Baby let go
You've got let go
And I thought that you should know
You're beautiful
Just let go
