[Verse 1:]

I saw you
Wanted you from the start
I loved you
You went and broke my heart
You were mine once upon a time
You got another guy and we tore apart

[Pre-Chorus:]

Now three months have passed
And I can't get past
The fact that you walked out of my door
Then you call my phone
Say you got it wrong
You say you want me back
You're begging for more

[Chorus:]

Now it's love times two in this heart of mine
I thought we were through then you pressed rewind
Baby can you feel it
No I can't conceal it
Now it's love times two baby
Times two
(repeat)

[Verse 2:]

My friends said
How could you let her back in
They don't know
What being in love meant
This romance deserves a chance
So I will fight for you
Til the bitter end

[Pre-Chorus:]

Cuz three months had passed
I couldn't get past
The fact that you walked out of my door
Then you called my phone
Said you got it wrong

You said you want me back
You're begging for more

[Chorus]

[Bridge:]
But it's more than your love
That your giving to me
In my arms
When you're here in my arms
Girl, you've given me hope
And you made me believe
In the light that appears
When the dark is gone
Your hand in mine
You and I
Against the world
We'll stand and fight
Nothing can stop the love we got now

[Chorus]
