I'm sick of all the days gone by  
When I didn't have you to myself  
I'm tired of E-mail conversations  
It could be someone else  
You say you need me  
Like the roses need sun or they'll die  
No matter what the people say  
Let's run away

*[CHORUS:]*

Let's run away  
Miles away  
Let the people say what they wanna say  
It's our fantasy  
I'm in love with thee  
Let forever be our brand new policy  
Let's run away  
Far away  
Love will take us there we'll be okay  
Make this dream come true  
I'll be next to you  
Let's just run away

I can smell your perfume off everything I wore  
When we kissed that night.  
I can see your face on the wall

Even through the dark of the night.

And when you call my cell phone  
My heart skips a beat out of time

If you really love me don't leave me, girl  
You don't have to say goodbye  
We did it all for love  
Let's run away, Let's run away

*[CHORUS]*

Ohh don't you remember when we used to sit  
And we'd dream of a home that we'd share  
Oh, we'd stand in the crowd

And we'd talk out real loud  
Girl, you'd swear we were already there  
We did it all for love

*[CHORUS]*

Let's run away

*[CHORUS]*

Let's run away  
Girl, we did it all for love
