# "Take A Bite"

La la la la la la la la la [x2]

You always seem to want to take a pop
Like a bully by the corner shop
All over me like a polka dot
You treat me like someone I'm not

I'm gonna blow up, I'm gonna blow up
Do you enjoy winding me up?
I'm gonna blow up, I'm gonna blow up
I'm gonna blow up, I'm gonna blow up

Get your teeth round this open wide
Eyes bigger than your belly tonight
If you think you're hard take a bite

You push and push and push, pushed me to fight
Everybody's got a limit alright
So put 'em up, put 'em up, take a bite

Just because you're twice the size of me
Doesn't mean I'm scared of World War III
Sit back and grab a cup of tea
I'm gonna kick your arse now in 3D

I'm gonna blow up, I'm gonna blow up
I'm asking pretty please

I'm gonna blow up, I'm gonna blow up
I'm gonna blow up, I'm gonna blow up

Get your teeth round this open wide
Eyes bigger than your belly tonight
If you think you're hard take a bite

You push and push and push, pushed me to fight
Everybody's got a limit alright
So put 'em up, put 'em up, take a bite

La la la la la la la la la
So I was just a shy girl from Halton Brook
I'd always write all my dreams down in my story book

We didn't have many pennies, used to sit round the telly
Never been wrapped up in the way I look
So when I got down to London, had the press on my case
Cause I didn't walk round with a smile on my face
Called me a rude ginger bitch and say I bought bigger tits
They're gonna eat all their words, they're talking absolute shit

Get your teeth round this open wide
Eyes bigger than your belly tonight
If you think you're hard take a bite

You push and push and push, pushed me to fight
Everybody's got a limit alright
So put 'em up, put 'em up, take a bite
