Can you feel me or are you numb?
What is it about you that makes me dumb?
I fell for your tricks and now it's late
The jokes on me

It's okay who needs a heart anyways?
One less thing for you to break
It's okay who needs you anyways?
One less thing each time I cry
It's okay I won't feel a thing
It's okay

My scabs are peeled off, what's done is done

Watch the blood flow out my love
A little blood won't hurt no one
So come with him and enjoy the fun

It's okay who needs a heart anyways?
One less thing for you to break
It's okay who needs you anyways?
One less thing each time I cry
It's okay I won't feel a thing
It's okay
