Poisoned love burning through my veins  
Public suicide for sale, or so they say  
Hit the lights boy, take it off girl  
Pay the piper for you're far too gone to care

Don't they see what they've become?  
Twisted, turning inside out  
But I won't let them change me  
I've seen it happen all before

Skin on skin, the pleasure's worth the pain  
The price to pay is worth the cost, or so they say  
Take the hit boy, take it off girl  
A life of solitude is all you'll ever know

Don't they see what they've become?  
Twisted, turning inside out  
But I won't let them change me  
I've seen it happen all before

Don't they see what they've become?  
Twisted, turning inside out  
But I won't let them change me  
I've seen it happen all before
