Can you save me from myself?  
Can you carry me my friend?  
Cause I don't seem to have much time  
And all is coming to an end

Save me from myself  
Cause I don't have much time  
When all is coming to an end  
Save me from myself

Can you save me from myself?  
Can your candle light the way?  
Things will never be the same  
And I won't come back home to stay

Save me from myself  
Cause I don't have much time  
When all is coming to an end

Save me from myself

Take another piece of me  
Cut me down so I won't feel  
We're all dying to break free  
Hold on to something that is real

Save me from myself  
Cause I don't have much time  
When all is coming to an end  
Save me from myself  
Save me from myself  
Save me from myself  
Save me from myself
