I'm a ghost to you now, I'm someone you don't really  
wish to see

I'm a ghost to you now, a shadow since you turned your  
back on me

Maybe you'll learn why it was I shook

Baby your turn to wear the haunted look

This ghost is here to stay

I survived the blast

Get ready, get ready to pay

I'm taking you at last -

A prisoner of the past

This ghost is here to stay

He survived the blast

Get ready, get ready to say

"i've found my niche at last -

A prisoner of the past"

Anywhere that you go, I'm going to be the welcome  
there for you

Everywhere that you go - be certain that the table's set  
for two !

Maybe you'll learn - there's nowhere you can go

Baby you'll turn - as white, as white as snow

This ghost is here to stay

I survived the blast  
Get ready, get ready to pay  
I'm taking you at last -  
A prisoner of the past  
This ghost is here to stay  
He survived the blast  
Get ready, get ready to say  
"i've found my niche at last -  
A prisoner of the past"  
This ghost is here to stay  
I survived the blast  
Get ready, get ready to pay  
I'm taking you at last -  
A prisoner of the past
