You do not have to see me to know that I'm around

Pupils dilate, the anxious heart will pound

If you've a problem sleeping, well that's a danger sign

It means your troubled heart will soon be mine

The Bible mentions four

I tell you there's one more...

Love is the fifth horseman, love is the fifth horseman

Love is the fifth horseman of the apocalypse

So know that I could catch you at any time I choose

I do not feel the ground beneath my shoes

This stallion I am riding, his pedigree, his pride

Won't let him rest 'till I am by your side

The Bible mentions four

I'm living proof of more...

Love is the fifth horseman, love is the fifth horseman

Love is the fifth horseman of the apocalypse
