### "Fly Or Die"

Visit "[Fly Or Die](#)" on [MotoLyrics.com](http://MotoLyrics.com)

For those who tread lightly, who need some  
enlightment  
The world is what u make of it  
You feel it up and break it til  
The pieces inside you [x2]  
Help you find your way back home  
So take it or leave it  
Cuz I dont believe it  
If you wont recive it until u achieve it  
I know that you need it  
I see you defeated  
Dont show defeated  
Just show your a leader  
And let love flow  
'til echos slow  
And makes your player crimes look gold

[Chorus]  
Fly or die  
Well that's the way ya do it  
Nearly getting by  
Well could b more stupid?  
Cuz before you know it your life is over  
So fly or die  
(a tedaly detaly de de)  
Fly or die  
At least you know your livin'  
If you get to high  
Well what could be more thrillin'  
Cuz before you know it your life is over  
So fly, fly, fly or die, die, die, die, die, die, die

Today your beginning the life u'll b living  
And every thought and every step will take you closer  
To the dreams you kept deep inside you  
Inside it will guide you  
So keep your ear close to your heart  
Well it's easy to see it but harder to say it  
The harder the ...  
And try to relate it  
Until you can play it

Or show and display it  
To those who are waiting to stop the complaining  
But let love flow  
As the sun sets low  
Cuz that's the only way to go home

[Chorus]

Fly or die  
Well that's the way ya do it  
Nearly getting by  
Well could be more stupid?  
Cuz before you know it your life is over  
So fly or die  
(a tedaly detaly de de)  
Fly or die  
At least you know your livin'  
If you get to high  
Well what could be more thrillin'  
Cuz before you know it your life is over  
So fly, fly, fly or die, die, die, die, die, die, die

[Musical interlude]

[Chorus]

Fly or die  
Well that's the way ya do it  
Nearly getting by  
Well could be more stupid?  
Cuz before you know it your life is over  
So fly or die  
(a tedaly detaly de de)  
Fly or die  
At least you know your livin'  
If you get to high  
Well what could be more thrillin'  
Cuz before you know it your life is over  
So fly, fly, fly or die, die, die, die, die, die, die  
DIE
