[Nature]At the right major 24, I'd done seen it all done  
it all  
Some dreams stay fresh and some are spoiled  
Dealing with time went to spring, summer, fall  
Its crazy changes, is this that made me famous?  
I come a long way from Timbs, minimum wages  
Stocking caps summer jobs pockets flat  
It's funny how my childhood idols now be coping cracks  
Ain't knocking at them, fortunately life is too short to  
see  
It's only right we move accordingly at every second  
I use to carry heavy weapons, previously cocked  
Tucked in my shirt for every session, but hold up  
The two-six beer made me grow up  
Came home to the damn same dream with no luck  
And half the clique strong, the other half moved on  
Some with new lives and new wives niggaz live long  
The foulest thing about time is still ticks when you gone

[Nas]For those who lived the way I lived we came from  
a long way  
From wiping coal from our eye lids from raps hottest  
Smoking lye to the track guidance, 'member back then  
Before mack 10's expensive bottles, had a sick mind  
Niggaz taught me how to get mine  
We often sit courts they get tossed that get spit lines  
To all niggaz that the Lord seemed to legit time  
Why we plan to live for-ev he had a different design

Is it safe to say we all parish on the sacred day  
With my luck soon as I reach the gate that made me  
pay... pray  
Minutes go by indo-go-high the specialist decked out  
dark specks finessing  
Used to play catch a kiss same girls back then now  
leave us messages  
A whole lot, travel to my old spot where we sold rock  
although it's trifle  
Ain't nothing changed as like time is cycle

[AZ]Yo, wake up to the world stay in charge of your

dream

Keep your vision focus get wise and large your cream  
Marketing scheme so many in the dark it's un-seemed  
Caught up between perhaps rap was a fortunate thing  
Forced to be king from hustlin to supporting them  
fiends

Busting guns, I had no remorse as a team  
Rocking bird stones my first get big nursed a dome  
Its hurts to zone now I realize I'm on the surface alone  
Time ticks devilish mind design quits leave you line  
quick

And cause you to die behind shit, mathematics  
Master 120 I'm Aziatic, I'm amazed with magic  
Cousins with loosen that made me savage  
Life changed once you established with the right game  
Love the night vane found the new way to fight pain  
Clocks never stop its all the way to the top  
Trying to freeze time that's why I iced the face on my  
watch
