In my dream, it's cloudy in the morning
And he helps me climb out of my sleep
We're wide awake
And silent as the sky
And everything we touch is ours to keep

In my dream, it's cloudy Christmas morning
And the snow ???? ???? ????
The world awaits, all misty in the light (?)
And everything we touch is ???? ???? dream

And how did it happen that you're there?
Lovers ???? dreamers
And how did it happen that somehow you care?
From the morning 'til the dark
Never lonely, come hold me in your arms
Hold me in your arms

Some lovers are dreamers
And maybe that's me
Can't look for some meaning
Just leave it, come hold me in your arms

Some lovers are dreamers
And maybe that's me
Can't look for some meaning
Just leave it, come hold me in your arms
Hold me in your arms
