[Verse number one]

That rugged cross of long ago....where jesus bled and died...

Became a sacred symbol...of hope...and truth and right....

Where there is no cross.....there can be no liberty....

For sin will build a prison....and men cannot go free...

[chorus]

All across this country....

This old country needs the cross.....

The christian faith....that made it great....

Must somehow not be lost....

One nation under god....is a truth no longer taught....

And all across this country....

This old country needs the cross

Verse number two:

The mind of man is staggered....by problems all around....

Our leaders search for answers....that somehow can't be found....

While we spend our millions.....seeking what we've lost....

All this country really needs....is a trip back to the cross.....

[chorus]

All across this country....

This old country needs the cross.....

The christian faith....that made it great....

Must somehow not be lost....

One nation under god....is a truth no longer taught....

And all across this country....

This old country needs the cross
