Verse Number One:

Seems to me its harder....to get a break today...
You're hard up against it...no matter what you say...
To get down to the goal line...and score some points in
time...
You gotta work a little harder...put your heart on the
line...

THE CHORUS:

I'm hard up against it...I'm up against a wall....
Yeah the harder they are...the bigger the fall....
I'm hard up against it...and I've got to have it all...and....
The harder they are....the bigger the fall...

Verse Number Two:

No one ever said...that life wasn't tough...
No one ever said that you'd ever get enough...
When you get discouraged....take hope in what I say...
When you're hard up against it...they'll be a better
day...

THE BRIDGE:

When you've got a mountain...and its so dad gum tall....

Love is the earthquake that makes.....a mountain fall....

THE CHORUS:

I'm hard up against it...I'm up against a wall....
Yeah the harder they are...the bigger the fall....
I'm hard up against it...and I've got to have it all...and....
The harder they are....the bigger the fall...

THE FADE CHORUS:

I'm hard up against it...I'm up against a wall....
Yeah the harder they are...the bigger the fall....
I'm hard up against it...and I've got to have it all...and....
The harder they are....the bigger the fall...
