Verse One:

Take away the things.... that people want so bad....
You're left with just each other.... to face the times
ahead
You'll find that love will find a way.... to get you through
those days
And, when you've got each other.... then you've got it
made...

Chorus:

When you've got each other.... then you've got it all....
When you've got each other.... then you've got it all....
If the world falls all around you.... I'll love you through it
all
And when you've got each other.... you've really got it
all....

Modulation

Verse Two:

A million golden pieces.... can 't buy what love can
give....
A handful of starlight.... can't give what love can give....
But, if you've got each other.... to hold to all night
long....
The waves of life can't shake you.... you've got each
other through the storm....

Modulate:

Bridge:

You've got to hold me....and help me through it all....
Living without you 's....not living at all....

Repeat Chorus:

When you've got each other.... then you've got it all....
When you've got each other.... then you've got it all....
If the world falls all around you.... I'll love you through it
all
And when you've got each other.... you've really got it
all....
