On top for forever
A fantasy unknown never
Wait 'till you hear the Chorus Girl

A snowdrop with sunstroke
A love song to make you choke
Wait till you hear the Chorus Girl

They'll be no waiting limos, no no
No cocaine and discos, no no
I gave that all up
For the Chorus Girl

Look out of the window
The people move down below
Each one is in love
With the Chorus Girl

You've tried to ignore her
To ride at those who adore her

But soon you'll come round
To the Chorus Girl

The poor become wealthy
The sick become healthy
But don't crucify
The Chorus Girl

At night all alone
With my microphone
I never come close
To the Chorus Girl

I'm waiting for you now
There's nothing to do now
But save your breath
For the Chorus Girl (x2)
