This could be the day that we push through
It could be the day that all our dreams come true
For me and you terrified me enough, just another day
Ahh, you're too terrified to try your best
Just to end up with an educated guess, not success
Like those times you wake up mystified
Oh it feels so real in my sleep, never felt so good, so close I do with you
Until the day this could be feeling, do you realise that I could feel it

Everything is changing and there's nothing I can do
My love is turning pages while I am just sitting here

Well, am I'm getting closer? Will I ever get there? Does it even matter?
Do I really need it? Wish that I'd remember and I'm on the outcome
(This could be the day that we push through)
Did I really want it? Does it really matter? It was only yesterday!
(It could be the day that all our dreams come true)
Didn't even know you! Now I'm gonna miss you
(Oh it feels so real in my sleep, never felt so good, so close I do)

Nothing ever changes, no matter how long you do your game
It's the same to everyone else
Everything is changing, I guess I should want my love
But she'd just be excited
