I'll break your heart
To keep you far from where
All dangers start
And atmosphere

Gets crazy life
Where every breath transpires
And to a star
Space stars come about you

They call me a thief
They call me a thief
Call me a thief
Call me a thief
Common thief
Common thief
Common thief
Call me
Call me

So i know that you're not that you're not here
Sort of lost without you
I hope that you find all there is that
you want, is inside you now.

I'll break your heart
To keep you far from where
All dangers start
I'm on my way
I'm on my way down

(guitar solo)

I know, that's you're not that you're not here
Sort of lost without you
I hope, that you find all there is that
You want is inside you now

I know that
You're not here
I wonder where you are

In the war
We are waiting for you
With your dying need for their attention
hold on right now
We won't let you fall

We are waiting for you
With you dying need for their attention
hold on right now
We won't let you fall
