Come on, is right,
take me to your light
Stream me one more shine,
it's all I know, it's all I know

Come on, is real,
you know how I feel
You give me something here
and it's all I know, it's all I know

So don't look down, I won't let go
You burn my mind, sting my soul
Stars are high, clouds set roll away

When you call my name,
it takes away my pain
Till only love remains,
say it again, say it again, say it again

Come on, is great,
take me to your place
You made me worth the wait
and I wanna know, I wanna know

Come on, is right,
take me to your light
Stream me one more shine,
it's all I know, it's all I know

So don't look down,
I won't let go
You burn my mind, sting my soul
Stars are high, clouds set roll away

When you call my name,
it takes away my pain

Till only love remains,
say it again, say it again
When you call my name,
it takes away my pain
Till only love remains,
say it again, say it again, say it again
