The beat breaks down so we pick it up
The floor shakes down but it's not enough
The beam is up and the kids are high
I've seen them move and it blows my eyes
The floor's an ocean and this wave is breaking
Your head is gone and your body's shaking
There is nothing you can do because there is no
solution
You gotta get down to the noise and confusion

The sound goes round and we start to climb
The lips curl up and it kills my line
The beat is steal and the scene is sown
I see her eyes and her eyes are blown
The floor's an ocean and this wave is breaking
Your head is gone and your body's shaking
There is nothing you can do because there is no
solution
You gotta get down to the noise and confusion

Out of our minds on the stage,
Out of our minds on the stage,
Out of our minds on the stage

The beat breaks down so we pick it up
The floor shakes down but it's not enough
The beam is up and the kids are high
I've seen them move and it blows my eyes
The floor's an ocean and this wave is breaking
Your head is gone and your body's shaking
There is nothing you can do because there is no
solution
You gotta get down to the noise and confusion

Out of our minds on the stage,
Out of our minds on the stage,
We're out of our minds on the stage,
Out of our minds on the stage
