Said come tomorrow, wave goodbye yesterday  
Said come tomorrow, we'll let go of today  
Well, come tomorrow, as soon as you can  
This day has been far too much for me, man

I see the faces they're laughing, crying  
Why is it our hearts are breaking, dying?  
Once was a girl with no care in the world  
Don't let her be only yesterdays girl

What kind of love burns holes in your heart?  
Holes that run deep like they'll pull you apart

Smoke it, don't drop it, right to the end  
Breathe in, breathe out and then breathe in again  
This song is over, so look past the end  
Soon come tomorrow again

Happiness lies in a moment, maybe a song  
Memories last not forever, but pretty long  
No need for words when you're speaking for real  
No need to tell me, I know how you feel

What kind of love burns holes in your heart?  
Holes that run deep like they'll pull you apart

Smoke it, don't drop it, right to the end  
Breathe in, breathe out and then breathe in again  
This song is over, so look past the end  
Soon come tomorrow again

Smoke it, don't drop it, right to the end  
Breathe in, breathe out and then breathe in again  
This song is over, so look past the end  
Soon come tomorrow again  
Smoke it, don't drop it, right to the end  
Breathe in, breathe out and then breathe in again  
This song is over, so look past the end  
Soon come tomorrow again

While we were sleeping the world moved on

While we were sleeping the dark turned to dawn  
Nothing remains of the plans that we made  
Only a parallel future that fades
