You'll never know, unless you try, you're blinding by
what you idleise.

I stand alone, nobody knows the morning. the sun is
roll he in my light

He's in my sole he's even in my rock and roll I stand
alone nobody knows

The morning the sun is roll.

I'm here to show, I'll help you out, it takes a lifetime,
I've worked it out,

I stand alone nobody knows the morning. the sun is
roll, the morning,

The sun is roll the morning. the sun is roll the morning.
the sun is roll.

So let it be and give it time you go you're way and I'll go
mine, I'll stand

Alonem nobody knows the morning sun is roll. you'll
never know unless we try

We're blinded by what you idleise we stand alone
nobody knows the morning

The sun is roll the morning the sun is roll the morning
the sun is roll

The morning the sun is roll the morning the sun is roll
the morning

The sun is roll the morning the sun is roll the morning
the

Sun is roll the morning.
