Didn't walk
Could've run
Ain't that enough?

Feel alive
Out on a limb
Same way as up

I want to be where we as people should be
I want to see what's that sound

Could've won, should've lost
And lay down and sung
Change your mind, change your line
Under my tongue

I wanna go where we as people should go
And I wanna know what goes on

In this three ring circus going round (three ring circus
going round)
This three ring circus going round (three ring circus
going round)
In this three ring circus going round (three ring circus
going round)
This three ring circus going round (three ring circus
going round)

I want to be where we as people should be
I want to see what's that sound
Make it home

In this three ring circus going round (three ring circus
going round)
This three ring circus going round (three ring circus
going round)
In this three ring circus going round (three ring circus
going round)
This three ring circus going round (three ring circus
going round)
