I Like It by J. Dale Lyrics

And you're the first thing that I see.
Your body looks familiar,
Maybe can I get close.

...

In my own dream, my desire.
And I know that you see me too,
And I know that you got to keep the distance.

Chorus:

Baby the way you do this...
The way you rock your hips,
The way you move your lips
Got me going crazy.
And I like it!
And I like it!
And I like it!
Baby,...down for you,
Put in on a show,

Got me going crazy.
And I like it!
And I like it!
And I like it!

You make me say
Come closer...
I got a crib built for two,
Baby what you wanna do,
I got a pool in my basement,
And I want you rocking,
And I want you to...
I got some...
Get it on,
Whatever you wanna do, baby we can do.
