It's been awhile that we've been together
The love we shared has meant so much
And we've been patient, waiting for the right time
Knowing that it would be wrong to run

But tonight I know the time for love has come
That special moment has arrived
And now I'm sure this love we have is real
And I know that our love will survive, 'cause

Good things come to those who wait
And we waited long enough for, the time for love is
right
Good things come to those who wait
Now I'm ready for your lovin' so let's make love tonight

Light up the night, I've dreamed about this moment
That you and I would be as one
But making love is something that we should always
cherish
Not something we only do for fun

But tonight I know the time for love has come
That special moment has arrived
And now I'm sure this love we have is real
And I know that our love will survive, 'cause

Good things come to those who wait
And we waited long enough for, the time for love is
right
Good things come to those who wait
Now I'm ready for your lovin' so let's make love tonight

Good things come to those who wait
Let me take you to a place where you have never been
before
Good things come to those who wait
We have done our share of waiting, now there's
nothing, love is gone

Good things come to those who wait
