Sweet, sweet love
Dark empty nights
Begged you to stay
Now you're far, far away!

There's something scary about the look that's in your eyes
There's hate and anger in your face
There had been trouble and it comes as no surprise
You say tonight someone has taken someone else's life
They say you talk about of anger and revenge,
But tell me when will all this senseless hatred end?

I'm begging you please
I'm on my hands and knees
Don't do something crazy, I'm begging you

Chorus:
Please don't go, please don't go
Don't go there tonight
It just isn't right
You may not come back to me
Our future we'll never see
You're throwing our life plans away
Please don't go

The only thing we have that we can call our own
Is this sweet love that we share.
But if you leave tonight you may not come home
And that's just one thought I can't bare.
Let's run away from here, to some place far away
Cause if we stay our love won't last another day.
Don't throw my love aside
Because of your foolish pride

Chorus
Now...
I wanted you to stay
But still you went away
Together we can run
Now look what they had done
I'll never feel your touch again

I'm left to see this tragic end
You're throwing our love life away

Please don't go, please don't
Please don't go, I'm begging you
Repeat (4x)
