Make up, your face. Put on your party dress.
Oh, be sure before you hit the dance floor.
Your song, your crowd, you've got your party dress on
Oh, sure before you hit the dance floor.

On and on, I'll sing if you keep dancing
I love this faith romancin'
On and on, this love is all around us
and on and on, lets let this love command us

You shake, you move, just like you wanted to
Oh, you're great mistake, he's on the dance floor
You stare, don't care, do what you wanna do
Oh, I think you blink first out on the dance floor

On and on, I'll sing if you keep dancing

I love this faith romancin'
On and on, this love is all around us
and on and on, lets let this love command me, oh!

SOLO

On and on (We shake, you move) x4

On and on, I'll see if you keep dancing
I love this faith romancin'
On and on, this love is all around us
and on and on, lets let this love command us
