So you've run out of numbers
And you've run out of lovers
They won't deliver that pizza
You're hungry under the covers
You're all alone in the moonlights
Got to get ready for daylights

All nite, all nite
Listening to the all nite radio

Don't wanna get up
The television is hummin'
You wanna close now
And find it impossible

All nite, all nite
Listening to the all nite radio

You could have been sleepin?
You could have done anythin?
But everybody's singin?
Good mornin'

All nite, all nite
Listening to the all nite radio
All nite
Listening to the all nite, all nite radio
