"If You See My Baby"

If you see my baby
With another man
Keep it a secret if you can

If you see my baby
With another man
Don't tell me even if you can

Bridge:

You know I could not stand the pain
So if you think you are my friend

I hope you never see her
With another man
But if you do don't you understand

(lead)
(bridge)

She's everything I longed for
She took so long to find
But I'd be lost if she changed her mind

If you see my baby
If you see my baby
If you see my baby
If you see my baby
