"Love, Now You're Gone"

Love, now that you're gone,
I just can't carry on,
Love left a space,
I can't erase that face,
Love that I knew gone like the morning dew,
What will I do without her.
Love, where is she now,
I sit and think of how,
She used to be,
Happy to be with me,
Love that I knew gone like the morning dew,
What will I do without her.
Love, left me for good,
I never thought she would,
Now I'm alone,
Wondering where she's gone,
Love that I knew gone like the morning dew,
What will I do without her.
