Every song I sing's a sad song,
Every note seems out of key,
Every line I write falls out of rhyme,
Since you're far away from me.

Every night I watch the stars fall,
Watch them till I'm fast asleep,
But when I'm sleeping, I'm not dreaming,
Since you're far away from me.
Oh but I need you,
Honest I do,
You know that I miss you,
I'll always miss you.

Every song I hear's a sad song,
Every word applies to me,
Loneliness is something I know about,
Since you're far away from me.
