There is something pretty freaking goin 'on in his head
A major violation goin 'on in the bed
Mental molestation of the tormented mind
The manic machinations the sonambiente kind

Skeletons hidden in the closet in the house
Of the mind of the sleep talker
Reds in the beds and Ghosts of the Past
In the mind of the sleep talker
Lies in the eyes and cries of the devils
In the mind of the sleep talker
Sleep talker
Psychosystematic black hole in the soul

In the mind of the sleep talker
Sleep talker

Something in the make up that's a little bit strange
Output may be different but the games never change
The failure of the function of the tormented mind
The manic machinations the sonambiente kind

Skeletons hidden in the closet in the house
Of the mind of the sleep talker
Reds in the beds and Ghosts of the Past
In the mind of the sleep talker
Lies in the eyes and cries of the devils
In the mind of the sleep talker
Sleep talker
Psychosystematic black hole in the soul
Of the mind of the sleep talker
Sleep talker
