"Time And Tide"

It's been sixteen years
And it don't seem more
Than sixteen days

As the years roll by
Does the time really fly?
Did lose my way?

In a rock 'n' roll band
With a guitar in my hand
And a song to play

It's a life on the run
Having too much fun
On the Super Highway

Don't pass me by.
Don't pass me by

Where does it go?
Where does the time go?
Where did it go?
Where did the time go?
Where does it go?
Where does the time go?
Where did it go?
Where did the time go?

When you're chasing your dreams
It sometimes seems
Like you can't slow down

The bed's still made
When you're on your way
To another town

But I never felt nothing
When I took a little something

To ease my mind

I just got on the track
and never looked back
for a long long time

Where does it go?
Where does the time go?
Where did it go?
Where did the time go?

Well it's been eight years now
And i don't know how
but I love her so

Met a girl who could love me
Put a ring on her finger
And I never let go

In a rock 'n' roll band
with a guitar in my hand
And a song to play

Through time and tide
I finally find
A brand new way
Where does it go?
Where does the time go?
Where did it go?
Where did the time go?

Where does it go?
Where does the time go?
Where did it go?
Where did the time go?

Don't pass me by.
Don't pass me by

Where does it go?
Where does the time go?
Where did it go?
Where did the time go?

Where does it go?
Where does the time go?
Where did it go?
Where did the time go?
