Victoria, Victoria, I could love you for a hundred years
And still want more of ya

It's been a long time now since high school days
But when I'm with you, darling you still amaze me
No one could ever come before ya
God knows how much I still adore ya

My Victoria, Victoria, I could love you for a hundred
years
And still want more of ya

Hey little girl, when we first met
I was shaking so hard you really made me sweat
You opened up my eyes and showed me
You took me by surprise and floored me

We walked to school together
Just a boy and a girl
We talked through all kinds of weather
About giving our love a whirl

Do you remember the time at the high school dance
When the Beach Boys sang about good vibrations?

My Victoria, Victoria, I could love you for a hundred
years
And still want more of ya

We walked to school together
Just a boy and a girl
We talked through all kinds of weather
About giving our love a whirl

We were cruisin' the strip every Friday night
Headin' for the beach in a two tone torc flight
First time I turned and saw you
God only knows I love you
Never anyone before you
Don't you know I still adore you?

My Victoria, Victoria, I could love you for a hundred

years
And still want more of ya

My Victoria, Victoria, I could love you for a hundred
years
And still want more of ya

My Victoria, Victoria, I could love you for a hundred
years
And still want more of ya

My Victoria, Victoria, I could love you for a hundred
years
And still want more of ya
