Can you feel it, love is waitin' there
When you feel it, I'll be waitin' there

Somethin' has come over me
I can't explain how full and free
I want you to feel it
Suddenly deep inside
I have peace on my mind
Oh, I want you to feel it

On the last day that I walked the earth
I found the answer to the question that we all search
Where do we go from here?

Can you feel it, love is waitin' there
When you feel it, I'll be waitin' there

Come inside, now you are cold
No colours block unopen doors
I want you to feel it
Suddenly deep inside
You have peace on your mind
Oh, tell me, can you feel it?

It's the last chance to take a look inside
It's up to you to change the world for a better life
Where do we go from here?

Can you feel it, love is waitin' there?
When you feel it, I'll be waitin' there
Can you feel it, love is waitin' there?
When you feel it, I'll be waitin' there

On the last day that I walked the earth
I found the answer to the question that we all search

Can you feel it, love is waitin' there?
When you feel it, I'll be waitin' there
Can you feel it, love is waitin' there?
When you feel it, I'll be waitin' there
