"Catch Your Train"

Visit "[Catch Your Train](#)" on MotoLyrics.com

Wake up, man, it's late but not too late
It's six o'clock like everyday
Get your things, run and forget the rain
Take power pills, don't miss your train

And you'd like to be another
A different guy and a better lover
For your love, for your life check your way
And you like the Rock 'n' Roller
A different life and Whisky Cola
But don't be low keep your own style
And catch your train

Don't be lazy man and work off your ass
He's the boss, you've gotta do what he says
Catch your train, run and forget those ways
Keep it cool, it's not too late

And you'd like to be another
A different guy and a better lover
For your love, for your life check your way
And you like the Rock 'n' Roller
A different life and Whisky Cola
But don't be low keep your own style
And catch your train
