Down, I am down  
On the ground, sad and tired  
I'm down, it's over now  
Yes I'm down, should I like it?

It's deep and dark  
Deep down in my heart  
It's deep and dark  
Since we've been apart

Is this love  
That comes around  
Takes me up, light years higher  
'Coz I, I wanna feel love once again

It's deep and dark  
Deep down in my heart  
It's deep and dark  
Since we've been apart

It's deep and dark  
Deep down in my heart  
It's deep and dark  
Without someone's love

It's deep and dark  
Deep down in my heart  
It's deep and dark  
Since we've been apart

It's deep and dark  
Deep down in my heart  
It's deep and dark  
Without someone's love
