Walking through the desert
You know what it's about it's really from the church too
far
That was never there
Yet you know I'm in heaven but it is a hell

Sun is drying up my brain
The smile and installations are my pain
I'm goin' mad, I'm goin' mad, I'm goin' mad

Walking through the desert
You know what it's about it's really from the church too
far
That was never there, that was never there

Sun is drying out my brain
The smile and installations are my pain
I'm goin' mad, I'm goin' mad, I'm goin' mad, mad, mad
