Test the mend, devil melt
Bloody money when it's lent
Scum repair everywhere
They want money, oh

Heavenly won't it be
Here's some money
Belong to thee
I will pay they will say
Give your money, oh

Obligator came and said to me
"Why don't you pay your debt?
The debt that you owe me"
Asking him for give up his demand
For I am without means
Despite inheritance

Remittance of the debt I can't accept
He told me and he kept
Quite tight on his demand
Imaginations came into my brain
'Cause situations came
That brings me in my grave

Test the mend, devil mend
Bloody money when it's lent
Scum repair everywhere
They want money, oh
