Close my eyes, didn't want to see
Believe the lies you said to me
She played a game, I played along
But now I know, I was not the only one

She treated me just like a fool
I was in love, you share my soul
The way you touched, I never knew before
Can't ask you out, don't close the door?

I wanna feel you, I wanna touch you
I wanna feel you by my side
Love is, love is blind
Don't you know, it's a state of mind?

Love is, love is blind
Love is blind, baby
Didn't know but you never life
But something told me, I was right inside

Things you said, they felt so good
They ask your brain was, oh, was so cute
But then I got behind the scene
I wanna go but I can't leave

The way you touched, I never knew before
Can't ask you out now, don't close the door

I wanna feel you, I wanna touch you
I wanna feel you by my side
Love is, love is blind
Don't you know, it's a state of mind?

Love is, love is blind
Love is blind, baby
Love is, love is blind
Love is, love is blind
