When I look at you  
I can see the sadness in your eyes  
In these desperate times  
We get pushed and shoved from every side

I can't love you if you won't let me  
Can't touch me if you don't try  
I can feel you, I know that you're ready  
To take it to the other side

Love will keep us alive  
Let's make the moment right  
It's now or never

Love will keep us alive  
Even the darkest night  
Will shine forever

Love will keep us alive  
Love will keep us alive  
Love, love will keep us alive

When you walk away  
There's an empty feeling in my mind  
As the days go by  
We get caught up in our separate lives

If you need me, you know I'll come running  
Right to you, just give me a sign  
I won't leave you, we'll make it together  
And take it to the end of time

Love will keep us alive  
Let's make the moment right  
It's now or never

Love will keep us alive  
Even the darkest night  
Will shine forever

Love will keep us alive  
Love will keep us alive

Love, love will keep us alive

Oh, I've got a lot of loving to show you  
You know I'd never want to control you  
I only wanna be by your side

I can't love you if you won't let me  
Can't touch me if you don't try  
I can feel you, I know that you're ready  
To take it to the other side

Love will keep us alive  
Let's make the moment right  
It's now or never

Love will keep us alive  
Even the darkest night  
Will shine forever

Love will keep us alive  
Love will keep us alive  
Love, love will keep us alive

Love will keep us alive  
Love will keep us alive  
Alive, love will keep us alive
