The yellow raven sipped the air
Of thunder and of rain
The yellow raven sipped the air
Gentle eyes kissing the rain

Where do you go, fantastic dream bird?
Take me away to somewhere
Take me away from here

Where do you go, fantastic dream bird?
Answer to my yearning
Take me away from here

The fire bird began to cry
When the music died away
The fire bird began to cry
And smoke was slowly driftin' by

Where do you go, fantastic dream bird?
Take me away to somewhere
Take me away from here

Where do you go, fantastic dream bird?
Answer to my yearning
Take me away from here
