New love is blind why don't you see?  
You hurt me inside, you're killing me  
It makes me sad all the time  
To see you around with all these guys

My heart's in pain I need you so  
Love's the same so please don't go

You give me all I need  
You give me all I need  
You give me all I need  
You give me all I need

Let's try again there's still romance  
We'll start a new life, take a chance  
There are so many ways  
Please don't forget it any day

My heart's in pain, I need you so  
My love's the same so please don't go

You give me all I need  
You give me all I need  
You give me all I need  
You give me all I need

You give me all I need  
You give me all I need  
You give me all I need  
You give me all I need

You give me all I need  
You give me all I need  
You give me all I need  
You give me all I need

You give me all I need  
You give me all I need  
You give me all I need  
You give me all I need
