Oh evil one take your bags and leave, you're not
welcome here, get out of
Here! You're reeking families right before my eyes,
and that's not okay with
Me! I'm taking chances (standing up for what's right),
you wont destroy ever
Last living thing in sight. Not as long as I am here, Not
as long as I am
Here.

My brothers are the most important thing to me. And
when we tear you down
At the end of time, we will rejoice our god is good (OUR
GOD IS GOOD)
Compose yourself. I want to make a difference. With
this weight on my back!

Oh evil one take your bags and leave, you're not
welcome here, get out of
Here! You're reeking families right before my eyes,
and that's not okay with
Me! I'm taking chances (standing up for what's right),
you wont destroy ever
Last living thing in sight. Not as long as I am here, Not
as long as I am
Here.

This is my war, and I must fight it. You better hope, we
never cross paths.
This is my war, and I must fight it. You better hope, we
never cross paths.
Because if we do, Because if we do. There would
never, be such a tremble.
Because if we do, if we do. There would never (THERE
WOULD NEVER) There
Would never be such a tremble!

This is the way, the way to my heart. You fired me up,
now it's time to go!
It's TIME TO GO.
