Innocent angel with your evil mind
But not around to see me plot the perfect crime
It makes me dizzy thinking just what you might do
And if you should find that I'm as evil as you

Magic Me, know just what you hide girl, Magic me

It isn't just talent 'cause it took me years
And girls like you only want to see my tears
I'd like to sit back now just to picture the fun
And see your reaction when the damage is done

Magic Me, know just where you hide girl, Magic me

The spell is very simple and it's worked so far
It's quick and very painful and it leaves a scar
Justice is all right with me
And I'll treat you just like you treated me
